## Buy Canadian Policy Targets Large Scale Projects

Large contracts from the federal government will now prioritize Canadian businesses and materials. The **"Buy Canadian Policy"** from the federal government took effect mid-December 2025. The policy applies to the government's new major projects and housing offices, defence procurement, and community infrastructure projects funded by the federal government. The policy also requires that Canadian steel, aluminum and wood products manufactured or processed in Canada be used in construction and defence projects requiring at least \$250,000 in materials.
